SUMMARY

Human-Computer Interaction (HCI) graduate from the Software Engineering Department, focused on UI/UX design and full-stack development. Skilled in designing and building user-centered interfaces with Figma and modern web technologies, with hands-on experience delivering complete, accessible, RTL-ready Arabic digital products. Eager to contribute to innovative product teams.

EDUCATION

Umm Al-Qura University — Makkah, Saudi Arabia

Graduated 2026

Bachelor of Human-Computer Interaction (HCI) — Software Engineering Department

EXPERIENCE

Technical Lead — Qoratayn Youth Association (Non-profit, Part-time)

Jan 2026 – Present

Dammam, Saudi Arabia

- Designed and developed a complete, integrated system for the association end-to-end — full front end and back end — including the official website (qoratayn.org.sa) and a custom content management dashboard.
- Leveraged AI tools throughout the website's development to accelerate building and enhance functionality.
- Delivered the entire technical solution single-handedly, enabling non-technical staff to publish and manage all content independently.

IT Trainee (Cooperative Training) — Saudi Arabian Amiantit Company

Mar 2 – Jul 31, 2025

- Completed a hands-on cooperative training program within the company's IT department, rotating across Help Desk and System Administration.
- Help Desk: provided first-line technical support to staff — diagnosing and resolving hardware, software, and network issues, and managing support tickets through to resolution.
- System Administration: assisted in managing servers, user accounts, and network resources, including system configuration, updates, and routine maintenance.
- Strengthened practical troubleshooting, documentation, and teamwork skills within a corporate IT environment.

PROJECTS (Samples in Portfolio)

StudyBuddy — Arabic Academic Platform for University Students

Graduation Project

- Full-stack Arabic academic platform for university students — UI/UX designed in Figma and built with Flutter and PostgreSQL.

MindWell — Mental Health Mood-Tracking App

Flutter

- Cross-platform Flutter app for tracking mood and supporting mental wellbeing, fully Arabic RTL (Cairo font) with Firebase Authentication.

Nusuk App — UX Analysis & Companion Prototype

UX / Academic

- UX analysis of the Nusuk app with a crowd-heatmap study, plus an Apple Watch companion app prototyped in Figma to match its visual identity.

Mister — AI Tutor App Brand Identity

Personal Project

- Designed a complete visual identity system for an AI-powered educational tutor app for K-12 students in Saudi Arabia — including logo, wordmark, mascot character, color system, and full brand guidelines in Figma.

Qoratayn Youth Association Website — qoratayn.org.sa

Web / Live Production

- Live production website for a licensed non-profit, with a custom Arabic RTL content management dashboard.

SKILLS

Programming Skills: HTML, CSS, JavaScript, Flutter (Dart), SQL, PostgreSQL, Firebase, Git

HCI / UI-UX Skills: Figma, UI/UX Design, UX Research, Prototyping, Responsive & RTL Design, AI-Assisted Development & Prompt Engineering (Expert)
