Portfolio

### SUMMARY

Software Engineering Department graduate (Human-Computer Interaction, Umm Al-Qura University) with hands-on experience in IT support, system administration and full-stack development.

### EXPERIENCE

**Technical Lead — Qoratayn Youth Association** Jan 2026 – Aug 2026
Dammam, Saudi Arabia

- Built the association's complete system from scratch: front end, back end and a custom Arabic CMS dashboard.
- Programmed and deployed the live production website, enabling non-technical staff to manage all content.
- Delivered the entire technical solution independently, using AI tools to accelerate development.

**IT Trainee (Cooperative Training) — Saudi Arabian Amiantit Company** Mar 2025 – Jul 2025

- Provided Help Desk support, resolving hardware, software and network issues for company staff.
- Managed support tickets from first report through to resolution.
- Managed servers, user accounts and network resources: configuration, updates and maintenance.

### PROJECTS

**StudyBuddy — Arabic Academic Platform for University Students** Graduation Project

- Programmed a full-stack Arabic platform from scratch using Flutter and PostgreSQL.

**MindWell — Mental Health Mood-Tracking App** Flutter

- Built a 15-screen cross-platform app with Firebase Authentication and full Arabic RTL support.

**ScrapBid — B2B Auction Platform for Industrial Scrap** Web · Mobile · Admin

- Bilingual auction marketplace: live bidding, verified business sign-up, seller workspace and admin console.

**Nusuk — UX Analysis & Apple Watch Companion** UX Research

- Evaluated the Nusuk app with Nielsen's heuristics and prototyped an Apple Watch companion in Figma.

### EDUCATION

**Bachelor of Human-Computer Interaction (HCI) — Umm Al-Qura University, Makkah** Graduated 2026
Software Engineering Department
